

Field	Details
Test Case ID	TC-005
Test Case Title	Validate Login with Password Exceeding Maximum Length
Objective	Verify that the mobile application prevents login when the password exceeds the maximum allowed length of 8 characters.
Priority	High
Precondition	User is on the Login screen of the mobile application.
Test Data	Password: Abcd1234!@Abcd1234!X
Steps	1. Enter a valid email address in the Email field. 2. Enter a password longer than 8 characters in the Password field. 3. Tap the LOGIN button.
Expected Result	The mobile application should reject the password because it exceeds the maximum allowed length of 8 characters and prevent the user from logging in.
Actual Result	The mobile application accepts the password exceeding 8 characters and successfully allows the user to log in.
Status	 FAIL
Defect ID	BUG-001
